Imagine yourself at Georgia Tech learning from a team of committed accomplished engineers!

A team of experts have created a dynamic experience, that will prepare any high school student for a future career in STEM. This accelerated STEM Academy May 31 - June 5, provides an elite site tour based residential program for your rising 10th grader through 12th grader.

For one week, High School Students will live the collegiate life staying five nights at one of the nation’s top Engineering and Technology universities: Georgia Tech. Students will have the opportunity to ask specialists in engineering and a host of STEM professionals what it is like to work in their field.

Our Academy is nearly twenty years old and has a long history of exposing youth to unprecedented facets of STEM. This summer will be the most dynamic academy to date.

Registration is open. The STEM Academy registration fee of $1,100 includes housing and meals. A $200 deposit is required upon registration, with installment plans available for the remaining payments.

To learn more and register visit AtlantaBSA.org/STEM-Academy.
BE INSPIRED! IN WAYS YOU DIDN’T KNOW WERE POSSIBLE...

- Have you ever wondered what makes a roller coaster safely stay in motion, or what it takes to run an automobile plant, or build a sports arena like Mercedes Benz Stadium? Then you have come to the right place.
- Students will have a unique opportunity to tour some of Atlanta’s greatest companies, with engaging behind the scenes tours that reveal unprecedented levels of access.
- Each student should find their passion in the world of Engineering and/or STEM at large!

LIVE COLLEGIATELY! SPENDING MAY 31 - JUNE 5 ON TECH’S CAMPUS!

- Life at Georgia Tech is exciting and new. Students will live on campus, just as they might in a couple of years.
- The Atlanta Area Council’s STEM Academy prepares high school students for collegiate success by creating a supportive residential and academic environment.
- Students will learn all facet’s of life at Georgia Tech. Our “On Campus” day will charter students to various premier departments, the Student Center, and even the College of Admissions!

BE INFORMED! YOU WON’T LEAVE THE WAY YOU CAME, IN A GOOD WAY!

- Each site tour is led by highly seasoned STEM professionals, out-pacing their colleagues in the field. Each student will have the opportunity to ask each professional as many questions as they can.
- Site tours are chaperoned by working professionals, who can also help to answer any engineering/STEM question.
- Students will work on project based learning activities where they become the EXPERTS.
- During this week, nearly all principles of Engineering/STEM will be covered. So don’t be afraid to ask questions!
