

Easter Peeps Hack to Make Slime Without Glue

Materials Needed:

- Peeps candy (5 pieces)
- 2 tablespoons cornstarch
- 1 tablespoon coconut oil

1. Prep Bowls

Add 1 tablespoon of coconut oil to a microwaveable bowl (Image 1). Then add five same-colored Peeps to each bowl (Image 2).

2. Melt Candy

Place the bowl in the microwave and melt candy for 30 seconds.

3. Add Cornstarch + Mix

Carefully remove the bowl from the microwave. Then add 2 tablespoons of cornstarch to the melted mixture and mix the ingredients together with your hands. Tip: Be sure not to overwork the slime to keep a gooey consistency.

4. Create + Combine Ropes

To make rainbow slime, make different colors of slime ropes and place them side-by-side. Then twist the ropes together.
