

## Mini Marshmallow Shooters (or Pom Pom Poppers)

These little contraptions are really easy and inexpensive to make, but boy, can they really launch a marshmallow!

Materials:

- 9 oz plastic cups
- 12" balloons
- mini marshmallows (or pom poms)
- scissors

And here's what you need to do:

1. Using two cups nestled together, cut 1/3 of the bottom part of your plastic cups off.
2. Tie a knot at the end of your balloon and cut off about 1/2" from the other end.

3. Now stretch the balloon over the uncut end of the cup

That's it! Now it's time to do some launching! Just put your marshmallow inside the cup on the knotted center, then aim the cup away from you, pull back on the outer knot and launch away!
