

## Aviation Merit Badge

This merit badge class will be two sessions. Scouts must complete both sessions to earn the merit badge.

**Total cost for the merit badge will be \$15.**

The \$5 charge when registering will assure the scout is sent a link to the Google Classroom session and upon completion council will provide completion, or partial completion, documentation (equivalent to Blue Card).

A \$10 charge for each scout taking the merit badge session will be charged at the museum.

Leaders, parents will be charged \$5 admission to the museum. Student age youth not taking the merit badge, seniors, and veterans are charged \$3 admission (cash or major credit cards accepted).

The first session will be posted in Google Classroom. A link will be provided approximately 2 weeks before the museum tour. You can complete the classroom session at your convenience, just be sure to complete it three days prior to the museum tour session. This will give the museum's merit badge counselor time to review your first session quiz and follow up if necessary. A homework assignment will be posted in the Google Classroom session and will be required to be presented at the museum tour.

**Siblings beware: Each scout taking the merit badge must have a separate email address to attend Google Classroom.**

The second session includes a Saturday tour of the aircraft museum from 9:00 am to approximately noon at the Aviation History & Technology Center. The museum is located at 555 Perrin Rd. Marietta, GA 30060. Driving directions will be provided in the Google Classroom session.

To get the most benefit from this class it is recommended that scouts purchase the Aviation Merit Badge pamphlet and study it prior to the sessions.
